

# Fall Semester Enrollment of 6,268 is Increase of Six Percent

## Agency is Formed For High Schools

Northwestern has established a Division of High School Relations to serve as a liaison agency between the university and high school students, administrators and teachers throughout Louisiana.

In announcing the formation of the new division, Northwestern president Dr. Arnold R. Kilpatrick said the office will be directed by Dr. Hoyt Reed, who is also director of continuing education at Northwestern.

Serving on the Division of High School Relations staff will be Randy Moffett, assistant director, and Betty Martin, graduate assistant coordinator of on-campus visitation programs.

The new Northwestern agency is under the supervision of the College of Basic Studies. Dr. Bennie Barron, dean of Basic Studies, works directly with Reed and Moffett in the administration of the office.

Reed said the new agency will work with high school principals, teachers and counselors in organizing career-planning programs, campus visitation programs and other university-related activities for high school juniors and seniors.

According to Reed, the Division of High School Relations has already planned parish-wide College Nights in several areas of the state, which will be attended by high school juniors, seniors and their parents.

**DR. HOYT REED** has been appointed director of the new Northwestern Division of High School relations. The new department will be responsible for liaison affairs between Northwestern and high school students, principals, administrators and teachers throughout Louisiana.

**THE NORTHWESTERN** State University Alumni Association has presented NSU's recently established Division of High School Relations a new station wagon to be used for student recruitment. Harrel Haile, right Alumni Association executive secretary, presents the keys to Dr. Arnold R. Kilpatrick, Northwestern president.

## Graduate School Rise Is Largest

Northwestern's fall semester enrollment is 6,268, an increase of 321 students over last fall's registration count.

Registrar Walter P. Ledet said 5,947 students were enrolled in the fall of 1970. Ledet said this fall's enrollment represents an increase of six percent over year's total.

The Northwestern Graduate School, one of the largest in Louisiana reported an enrollment of 1,169, an increase of some 152 students over last year. This is a 15 percent increase.

Dr. Leo T. Allbitten, dean of the graduate school said there are 782 students in master's degree programs, and 387 are studying beyond the master's level.

A breakdown of the undergraduate colleges shows that Basic Studies is the largest college with an enrollment of 2,170. This is up 830 students from last year. Included in Basic Studies are many of the students enrolled in Northwestern's continuing education program.

This fall's freshmen class reached a record of 2,468. This compares with 2,201 in 1970. Other class counts show 1,029 sophomores, 784 seniors and 818 seniors. Additional breakdowns show there are 3,359 men enrolled and 2,909 women.

Fred Bosarge, director of housing, said 2,828 of the students are residing in campus dormitories. There are 1490 students in women's residence halls and 1,338 in men's dormitory.

## McCullough Decorated For Heroism

Two Silver Stars for heroism, three Bronze stars for meritorious achievement and the Purple Heart for injuries received in Vietnam were presented to Lt. Thomas P. McCullough recently during ceremonies at Northwestern State University.

McCullough, a 1969 graduate of Northwestern, could have received the decorations from the U.S. Army at any military installation of his choice, but he requested that the presentations be made at Northwestern.

Maj. Gen. C.L. Johnson, deputy commander for Reserve Affairs from Fifth U.S. Army Headquarters in San Antonio, Tex., flew to Natchitoches to present the medals to McCullough, who distinguished himself in battle in Vietnam.

McCullough was honored guest at a luncheon in the Student Union which was attended by relatives, university officials, military personnel, Reserve Officers Training Corps cadet leaders and other special guests.

"Thomas P. McCullough Day" was proclaimed by Northwestern president Dr. Arnold R. Kilpatrick. Kilpatrick was out of town but was represented by NSU vice-president of academic affairs Dr. Charles F. Thomas.

Maj. Gen. Johnson said the

**LT. THOMAS P. McCULLOUGH**, seated, talks with vice-president Dr. Charles F. Thomas during a visit to the NSU campus to be decorated for heroism in Vietnam. McCullough received two Silver Stars, three Bronze Stars and the Purple Heart.

medals were presented for heroism in Vietnam on Nov. 12-13, 1970. McCullough was serving as company commander of Company A, 1st Battalion, 52nd Infantry when he distinguished himself in combat near Quang Ngai. He was cited for "consistently manifesting

exemplary professionalism and initiative while serving Company Commander. His rapid assessment and solution of numerous problems in a combat environment greatly enhanced his unit's effectiveness against a determined and aggressive enemy.

**DR. TOMMY G. JOHNSON**, head of the Department of Business Education and Office Administration at NSU, authored an article which appeared in the national publication, Business Education Forum. It was a study of business programs at Northwestern.

## Alumni Chapter Gets New Officers

Meetings were conducted during October and early November by Northwestern's Alumni Association chapters in Baton Rouge, Shreveport and Dallas.

University representatives attended the meetings and brought alumni up-to-date on the status of Northwestern, and all three chapters elected new officers for the coming year.

The Baton Rouge area alumni met Oct. 17 at William J. Dodd's farm in Clinton. Some 150 alumni were present. Elected president was J. A. Rockhold. Lela Mae Lee was named vice-president, and Toni Bradford was selected as secretary.

Named to the board of directors for the Baton Rouge area chapter were Mrs. Marjorie Dial, Morris Carbo, Perry Thompson, Undine C. Sapp and Dr. Harold Denning.

The Northwest Louisiana Chapter of the Alumni Association met Oct. 20 in Shreveport, with 100 attending. Gerald Yarbrough was elected as the new president. Mildred Wilson is vice-president, Claudette Powell secretary and Ann Rutledge treasurer.

More than 50 alumni attended the North Texas chapter meeting in Dallas Nov. 2. Vivian Flores was elected president, and Dr. Wanzer Drane was named vice-president. Winnie Wyatt is secretary-treasurer, and Al Nicosia was elected publicity chairman.

Northwestern president Dr. Arnold R. Kilpatrick attended all three of the meetings, as did alumni and placement director Harrel Haile. Also attending was Dr. Hoyt Reed, director of the newly-established Division of High School relations.

The Division of High School Relations will be working closely with alumni chapters in an effort to recruit outstanding students for Northwestern.

## Graduate N Club Addresses Sought

Three newsletters have been mailed out this fall to members of the Graduate N Club. If you are not receiving these letters but are a member of the Graduate N Club, we need your address.

Please send your address to Jerry Pierce, Secretary-Treasurer, Graduate N Club, Northwestern State University, Natchitoches, La. 71457.

THE LARGEST SHIP ever sunk was the 206,000-ton tanker "Marpessa," owned by royal Dutch-Shell, in 1969, though empty, she was sent down on her maiden voyage by an explosion!

**NEW OFFICERS** of the Northwest Louisiana Chapter of the Northwestern State University Alumni Association were elected during a recent meeting in Shreveport. They are Gerald Yarbrough, president; Mildred Wilson, seated, vice-president; Claudette Powell, secretary, and not pictured, Ann Rutledge, treasurer.

## Look Who's Here

**MR. AND MRS. HENRY HUGH JOYNER** (Henry, BA '65) announce the birth of their second son, Kevin Todd Kevin was born September 30, 1971 at Womens Hospital in Baton Rouge. He joins brother Christopher Hugh who is 4 years old. Henry is Public Relations and Advertising Director for Gulf States Utilities in Baton Rouge.

**MR. AND MRS. REX MCWATERS** (Sandra Byrd, BS '67) announce the birth of their first child, Brian Rex, born September 19, weighing 8 lbs. 2 ozs. The McWaters live in Torrance, California where Rex is employed by the Aerospace Corporation. Sandra has taught at West High in Torrance for the past three years.

**MR. AND MRS. RUSSELL H. STANLEY** (Russell, BS '68) are the proud parents of a son, Michael Leroy, born August 27, 1971. Leroy weighed 7 lbs. 1 1/2 ozs. and is their first child. Russell is currently employed as an internal auditor with Western Electric Inc. at the region headquarters in Atlanta, Georgia.

**MR. AND MRS. GENE BARROW** (Gene, BA '62, Dorothy O'Glee, BA '60) announce the birth of their third child, Patricia Dianne, on September 27. She weighed 7 lbs. 11 ozs. on arrival at Lincoln General Hospital in Ruston. The Barrows have two other daughters, Mary Ellen, 6 1/2 and Susan, 1 1/2. Gene is director of social service at Ruston State School.

**MR. AND MRS. JERRY D. BARNETT** (Patty Shaver, BS '66) announce the birth of their second child, Amy Elizabeth, born July 17, 1971

weighing 7 lbs. 10 ozs. She is joined at home by 2 1/2 year old Kimberly. The Barnetts now live in Plain Dealing, La.

**MR. AND MRS. O. L. GORE, JR.** (Jacqueline Waggoner Cox BS '62) of Plain Dealing, La. are the proud parents of a baby girl, Sylvia Lynell, born May 15, 1971 weighing 8 lbs. 15 ozs. She is joined at home by 9 year old Jamie and 3 year old Brad.

**DR. AND MRS. LOMA L. LAIRD** (Beverly Norman, BA '60) announce the birth of twins, Trecia Leigh, 6 lbs. 10 1/2 ozs. and Trenton Loma, 7 lbs. 6 1/2 ozs. They were born at Memorial Hospital in Nacogdoches, Texas on July 26, 1971. The twins join a brother, Trey, 6 years old and a sister, Dana Delayne, 17 months. Dr. Laird is the radiologist for the city and surrounding areas.

## "Cupid's Doings"

**MAURICE COOLEY** (BS '61) and **ROBERT F. DRIGGERS** were married on October 2, 1971. They are currently living in Shreveport, La. Robert is working for Southwestern Electric Power Company and Maurice is working for Pennzoil United, Inc.

**ANNE MARIE OWENS** (BA '71) and **HARRELL FOSTER SHELTON** were married on August 7, 1971 at the Ford Park Baptist Church, Shreveport La. Harrell is a senior at Baylor and is the Bear Trainer for the Baylor Bears. Anne is teaching kindergarten in the Waco Independent School System.

## Alumni Here 'N There

**ROBERT A. JANZEN** (BA '66) was promoted to Captain on May 13, 1971, and since September 1, 1971 has been on active duty with the U. S. Army Artillery Division.

**NELMA E. HONEYCUTT** (BS '62) is employed by the Federal Deposit Insurance Corp., Memphis Region, as a bank examiner. She is currently working out of the Baton Rouge Field Office. Miss Honeycutt was the first woman examiner in Louisiana, but has since been joined by two more women.

**LT.-COL. AND MRS. JOHN L. MASSINGILL** (Essie Gabbert, BA '50) are currently residing in Atwater, California. Essie is now teaching the sixth grade. John is retired from the Air Force and is presently employed in co-partnership with Aristocrat Trailer Sales of San Luis Obispo, California.

**DAVID CORDELL GAAR, JR.** (BA '66, Med '67) is teaching for the Department of Defense in the Bindlach Elementary School, Bindlach, Germany. Prior to going to Germany, he was counselor in the Pusan American School, Pusan, Korea.

**SHARON ELIZABETH PARKER** (BA '71) is now married to Don Monk and is the Speech Therapist for the LaSalle Parish School System. Sharon and her husband have a daughter, Tonya Elizabeth, born August 16.

**MR. AND MRS. ROBERT POWELL** (Robert, BS '60, MS '67; Janice Freeman, BS '63) are now living in Panama City, Florida where both are teaching school. They have two sons, Rod, age 4 and Bob, age 2.

**DAVID R. GURLEY** (BS '68) is now doing graduate study in biology at the University of Southern Miss. in Hattiesburg. He has a fellowship. David resides there with his wife, Janice Fontenot, BA '68, and their 14 month old son Gantt.

**MR. AND MRS. JAMES LARRY WEEKS** (Patsy Lowderback, BS '64; James, BS '64) are now residing in Shreveport. Larry has opened his dental practice in Shreveport after serving in the U. S. Army at Valley Forge General Hospital in Pennsylvania. The Weeks have three children, Stephanie, 4, Kristie, 2 and Sonny, 1.

**WANDA M. NORMAN** (BS '65) is now residing at 1003-A Quail Creek Road in Shreveport and would appreciate hearing from former classmates and friends. Wanda is employed as a part-time nurse while enrolled in graduate courses.

**COMMANDER TOMMY C. WIMBERLY** (BS '50) was recently presented the Bronze Star Medal in ceremonies at the Naval Air Station at Alameda, California. At present, Tommy and his wife, the former Guaynell Dunsworth, and four children reside in Concord, California.

**LOUIS FAIRRIERE HYAMS, JR.** (BS '54) has been appointed the position of Supervisory Recreation Specialist with the Army Special Services overseas. He will be located in Thailand.

**UNIVERSITY ALUMNI ASSOCIATION NORTHWESTERN STATE**  
Organized 1894  
Member of  
**AMERICAN ALUMNI COUNCIL**

VOL. XXXI — NOV. 1971 NO. 3

Published monthly except in June, July and August by Northwestern State University. Editorial office: Alumni and Placement Office, Room 223, Student Union Building, Natchitoches, Louisiana 71457. Entered as second-class matter under Act. of August 4, 1912.

## NSU Recreation Complex Planned

A committee of eight students and five faculty and staff members has been organized at Northwestern to begin planning a vast recreational complex for the university campus.

Preliminary plans for the complex, which will be financed by student activity fees, have been drawn up by the Research and Development Committee of the Student Union Governing Board.

Shirley Dickson of Center Point, Iowa is serving as student chairman of the planning committee.

Serving as advisors to the students are Student Union director Robert Wilson; NSU property manager and building program coordinator Loren Lindsey; business manager Ted Wright; dean of students Dr. Richard Galloway; head of the Department of Health, Physical Education and Recreation Dr. Robert Alost, and architect Harold L. DeKeyser of Alexandria.

Among facilities which will be included in the recreational complex are a nine-hole golf course, outdoor Olympic size swimming pool, pro shop for the golf course, clubhouse complete with lobby, fireplaces, meeting rooms, concessions area and bathhouse for swimmers, a miniature golf course, tennis courts, covered picnic areas with barbecue pits and other recreational facilities.

Although a site has not been selected for the complex, it would probably be located on the western side of the NSU campus, which is presently being cleared and drained.

## Caddo Parish Leading Contributor Of Students To NSU For Fall Term

Caddo Parish is Northwestern's leading contributor of students again this semester, according to a breakdown of fall term enrollment figures.

Represented by 400 women and 463 men for a total of 863, Caddo has for several years had the largest number of students at Northwestern of all the Louisiana parishes.

Natchitoches Parish has the second largest number of students at Northwestern with 827, but an additional 200 married students from throughout the state are now listing addresses in Natchitoches.

The third largest contributor of students to NSU is Rapides with 716, including 361 men and 355 women. Rapides has had the largest increase in enrollment of any parish in recent years.

Vernon Parish is fourth with an enrollment of 483, and Sabine is fifth with 256. Bossier Parish follows with

230, giving the Caddo-Bossier area a total of 1,093. Caddo and Bossier Parishes have 17 percent of the Northwestern student population.

Figures reveal that of Northwestern's enrollment of 6,268 this semester, 5,760 of the students are from Louisiana. The Louisiana students make up 92 percent of the total enrollment of the university.

All 64 of Louisiana's parishes are represented at Northwestern. In addition, there are 402 out-of-state students from 47 states and the District of Columbia, and there are 106 foreign students from 13 countries.

Texas is the leading contributor of out-of-state students to Northwestern with a total this semester of 78. There are 39 from Arkansas.

Other Louisiana parishes which contribute heavily to Northwestern's student population are DeSoto, 204; East Baton Rouge, 154.

**KRISTIE ROACH**, Northwestern coed from Natchitoches, has been elected as the national Princess Soya. Miss Roach, who will serve as the national representative for the soybean industry, won the title in competition against soybean queens from across the country.

## Technological Institute Established For Vocational Training at College

Northwestern has established a technological institute to provide two-year quality educational programs designed to give students vocational skills which meet the needs of industry.

The institute, which is the first of its kind in Louisiana, will be administered by the College of Science and Technology.

Dr. Rene Bienvenu, dean of the College of Science and Technology, said the institute will offer study in chemical computer, drafting, electronics, graphic arts, tool and die design and wood technology programs.

Students in the chemical technology program will be prepared for positions in chemical control and research laboratories in industry and government, and drafting students will receive training in technical, structural and architectural illustrations.

The new computer technology program will open

in the fall of 1972. Students in that program will have three options — the one-year certificate program, the commercial program designed to prepare students for positions as computer operators, operator programmers, or analysts, or the technical program which trains students to service equipment in the data processing industry.

Electronic technology training ranges from basic principles through such complex courses as microwaves, instruments, transistors, electronic drafting and industrial electronics.

Men and women trained in electronics are employed in research, design, development, production, operation, control installation, maintenance, sales and supervision positions in numerous industries.

Students interested in the new technology programs at Northwestern may write Technological Institute, College of Science and Technology, Northwestern State University.

**SUSAN BOSWELL MURPHY**, Northwestern junior primary education major from Natchitoches, reigned as NSU's State Fair Queen during the annual State Fair football classic against Louisiana Tech in Shreveport. Susan won the title over 22 other nominees for State Fair Queen.

## General Studies Program Started

Northwestern has established a new Bachelor of Arts Degree program in General Studies.

Dr. Arnold Kilpatrick, Northwestern president, said the new program is administered by the university's College of Basic Studies.

Basic Studies dean Dr. Bennie Barron said the general studies program is designed for students who desire to pursue a broad base program of academic study leading to an undergraduate degree.

Barron said the program allows students to earn an undergraduate degree with multi-discipline and multi-departmental course offerings. He said it also allows students to earn a generalized degree which could be structured to facilitate movement into graduate programs.

Students who complete the program are granted the Bachelor of Arts in General Studies. Requirements for the degree include a minimum of 124 semester hours of academic courses.

Barron said students in General Studies must take at least 18 hours in three different groups of academic offerings. Group I includes English, art, languages, music speech and journalism. In Group II are anthropology, economics, political science, geography, history, philosophy, sociology and psychology. Group III includes biology, botany, chemistry, geology, mathematics, microbiology, physics and zoology.

Students must also take an additional 18 hours in one of the groups, or they may take the 18 hours in a supplemental area, made up of agricultural sciences, industrial education and technology, computer science and aviation science.

Barron said students must earn at least a grade of "C" on all hours pursued at Northwestern.

**JEANNE VIGE**

## Northwestern Girl Yambilee Queen

Jeanne Vige, Northwestern State University junior from Opelousas, has been elected Louisiana's 1971 Yambilee Queen.

Miss Vige won the title in competition against 25 other previous beauty pageant winners from across the state. The contest was held in Opelousas last weekend during the annual Yambilee Festival.

A 1970 graduate of Opelousas Senior High School, Miss Vige is the daughter of Mr. and Mrs. Alden Vige. She is 18-years-old, has brown hair, stands 5-foot-4 and weighs 110 pounds. Her grandmother, Mrs. Lettie Gandy is a Provencal resident.

Jeanne entered the pageant as Miss Opelousas, a title which she won during the summer. She was sponsored by the Miss Opelousas pageant and the Opelousas Mother's Club.

As the 1971 Yambilee Queen, Miss Vige will serve as the yam industry's official representative at pageants, fairs and beauty contests across the state and will accompany yam industry leaders to conferences across the United States.

## Boswell Is Appointed Chairman Of School's Committee of Consultants

C. F. Boswell, plant manager for Western Electric in Shreveport has been elected to serve for a fourth straight year as chairman of a Committee of Consultants on technical education for Northwestern.

Five Louisiana industrial leaders are serving on the committee, which was students meet the rapidly-changing needs of modern industry.

Other members of the consultant committee are Dave McClung, personnel and industrial relations manager, Union Carbide Company, New Orleans; Patrick H. Jones, director of industrial relations, Louisiana Ordnance

Plant, Shreveport; George W. Dillard, personnel director, AMF Beaird Company, Shreveport, and W. W. Harrington, systems engineering manager, International Business Machines, Shreveport.

Northwestern officials assigned to work with the committee are Dr. Rene Bienvenu, dean of the College of Science and Technology; Dr. Nedon Muns, head of the Department of Industrial Education and Technology, and Dr. Ed Greco, coordinator of science and technology.

The committee of consultants will also assist Northwestern in its Technological Institute.

# Lee Roy Pittman Short-Yardage Expert

For rangy Lee Roy Pittman, Northwestern's 6-2, 202-pound fullback from Jackson, the fullback's role in football has not changed much. He's still considered the curcial short-yardage man on third down.

Not long ago, in fact it was Northwestern's last home game of the season, Pittman reminded us once again of the importance fullback plays in football.

To set the scene, the Demons, who wind up their first independent football season since before 1948 at Southeastern Louisiana on Nov. 20, were playing the McNeese State Cowboys, then the No. 1 nationally ranked small college football

Prior to that game, Northwestern hadn't had much consistency in its rushing attack but for some reason the Demons' ground machine decided to manipulate a strong Cowboy defense, almost flawlessly. McNeese tied Northwestern 3-3 that

night with Dennis Wilkinson of NSU and Carlos Medrano of the Cowboys exchanging second half field goals.

But to probe the worth of a young man who plays fullback and understands his position's role, Pittman, a redshirt tight end last year, converted seven of 10 third-down plays into first downs for Northwestern and this is the kind of consistency the Demons have lack all year in their running attack.

The experts say the good fullback should average about 3.7 yards a carry. After seven games Pittman was averaging about 3.5. But his third down efforts against McNeese, and the fact he gained 61 yards on 25 carries, were enough to get him voted the Louisiana Collegiate Offensive Player of the Week.

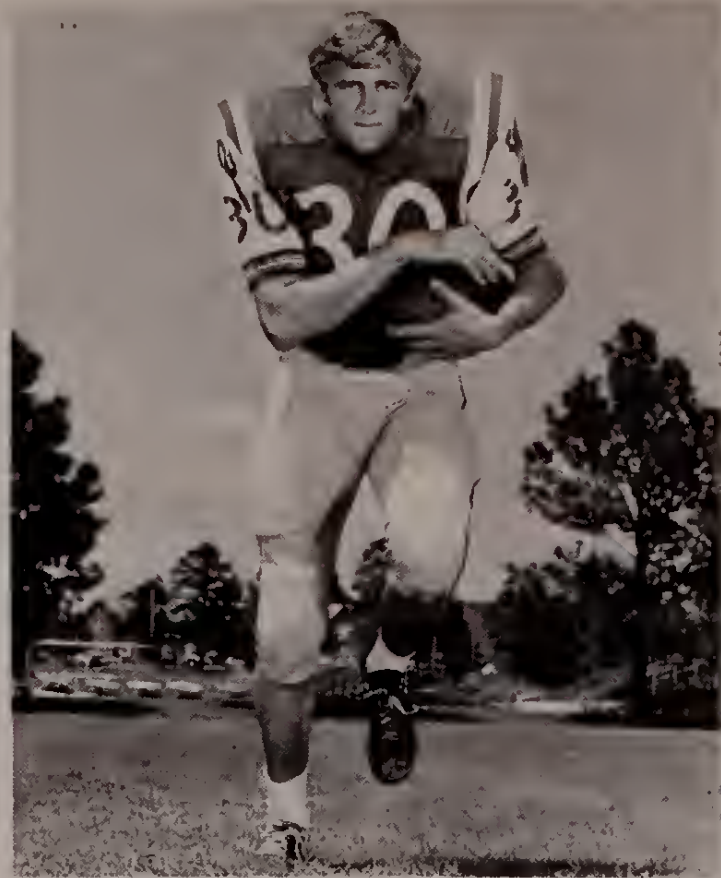

This was the second time this season that an NSU back had won such an honor. Junior halfback Donald Johnson was voted that honor after NSU's

24-10 win over Gustavus Adolphus to open the season.

Pittman averaged 3.1 yards each time he rushed on third down. In the first half, he averaged 4.5 a third down while converting four of six attempts into new life for the Northwestern offense.

The three times he converted a third-down play in the second half he averaged three yards a play and all three conversions followed a five-yard loss when he ran into offensive tackle Mike Boyce on third-and-four. Boyce, a converted defensive tackle who was filling in for injured Roy Mouledous, made an honest mistake at a time when Pittman was in position to advance towards the first down marker.

Short-yardage plays and power sweeps are the big plays for a fullback, but when Pittman ran though the McNeese defense that night his position's value became priceless.

**LEE ROY PITTMAN**, 6-2, 202 pounds from Jackson, became Northwestern's second running back this year to win the Louisiana Collegiate Offensive Player Award when he made several big third-down plays in NSU's 3-3 tie with McNeese State.

## Nine Seniors To End Football Careers in Southeastern Game

### Offense is Bright In Cage Workouts

"When you can't stop your own offense, you like to think your offense is a good one," said Northwestern State University basketball coach Tynes Hildebrand. "When something like that happens, you've either got a good offense or your defense is weak. I would like to believe we have a good offense."

With less than a month before the Demons open their 1971-72 season at home against powerful Stephen F. Austin University, Hildebrand's Demons now have begun to stress defense.

Calling his offense a "situation offense", Hildebrand has been pleased with his fast-break. "The fast-break has been looking real good," he said.

The Demons have three players out with injuries. Stanley Lee (6-5) has a hand injury, John Hill (6-5) has a cut foot and Judson Brock (6-6) has a muscle pull in his side as result of last Monday night's intra-squad scrimmage. All three, however, are expected to return next week.

Randy Veuleman, a 6-0 guard from Many, has improved his shooting, as have other non-starters from last year, Perry Ball, Randy Prather, Butch Hildebrand, Edward Johnson and Erick Hunt have each played well.

Since the pre-season workouts began back in mid-October, Hildebrand is convinced that he will be able to score a lot of points this season on teams that have the good defenses. "I feel like we're going to be able to score," said Hildebrand.

TYNES HILDEBRAND

### NSU Basketball Schedule

Dec. 1	Stephen F. Austin	Natchitoches
Dec. 4	Texas A&M	College Station, Tex.
Dec. 7	U. of Nevada, Las Vegas	Las Vegas, Nev.
Dec. 9	Louisiana College	Natchitoches
Dec. 13	U. of Southern Miss.	Hattiesburg, Miss.
Dec. 16	Northeast Louisiana	Monroe
Dec. 20	Southern University	Baton Rouge
Dec. 21	Grambling	Natchitoches
Dec. 29-30	Centenary Tournament	Shreveport
Jan. 3	Southeastern Louisiana	Natchitoches
Jan. 4	Centenary	Natchitoches
Jan. 6	Nicholls State	Thibodaux
Jan. 10	Southwestern Louisiana	Natchitoches
Jan. 13	McNeese State	Lake Charles
Jan. 22	Southern State	Natchitoches
Jan. 24	Louisiana College	Pineville
Jan. 31	Louisiana Tech	Natchitoches
Feb. 2	Centenary	Shreveport
Feb. 7	Northeast Louisiana	Natchitoches
Feb. 10	Southeastern Louisiana	Hammond
Feb. 14	Nicholls State	Natchitoches
Feb. 21	McNeese State	Natchitoches
Feb. 24	Louisiana Tech	Ruston
Feb. 28	Southwestern Louisiana	Lafayette

### Wilkinson, McCrary, Koncak, Tacker, Wattigny Among Last Year Players

The Northwestern State University Demons will end college football careers for nine seniors on Nov. 20 when they play their last game for Coach Glenn Gossett against Southeastern Louisiana.

All nine have seen good years together, were jubilant in victory and displayed the agony of defeat.

The following is a lineup of Northwestern personalities who will not be around in uniform next season:

Dennis Wilkinson of Baton Rouge Broadmoor has been a pressure kicker for the Demons the last two years. Last year he kicked a 24-yard field goal with 49 seconds left to beat Louisiana Tech 20-17 and kicked a 21-yard field goal against Stephen F. Austin to win that game 9-7 with a minute left in the game.

Gary McCrary of Baton Rouge Istrouma has been one of NSU's all-time great centers. At 196 pounds, he was twice all-Gulf States Conference and his leadership and ability will never be forgotten.

Bobby Koncak of Dallas South Oak Cliff was twice all-Gulf States Conference guard and this year his blocking and leadership can't be compared with. Against McNeese State, he played his greatest game in his college career.

Bob Wattigny of New Orleans Holy Cross played cornerback last year but won a spot at quarterback this season. He's had his ups and downs this season with injuries, first a brain concussion, a sore arm and a hip-pointer. He threw a near-

record 44 passes against Tech and guided NSU expertly against McNeese.

Greg Clark of Dallas Woodrow Wilson has been one of NSU's hardest playing defensive ends. Coach George Doherty called him a young man to be admired, because he doesn't have the size nor the physical strength of a college defensive end, but he gets the job done.

Craig Tripp was a starting defensive tackle last year, but this season has had trouble breaking into the starting lineup because the knee he had operated on during the off-season didn't respond to treatment. He has mostly been supplying back-up help.

Larry Gaudet of New Orleans Holy Cross has been a four-year starter for the Demons. His first two seasons were spent at defensive end but last year an injury to Bentley Usey in the opening game forced him to start at linehacker.

Hrapmann has been a four-year starter with Northwestern, all in the defensive backfield. He's called the defensive coverages for the Demons so long that he'll be calling them in his business ventures. A little man from New Orleans who is only 5-9. Hrapmann is one of the most alert defensive backs in college football today.

Paul Tacker of Dallas South Oak Cliff has been one of the most punishing cornerbacks in Louisiana small college football. Last year he put a crushing tackle on Northeast's Joe Profit that fans won't ever forget.
